

Profile Summary

Final-year Computer Science and Engineering undergraduate and aspiring **Software Engineer** with a strong interest in **web development** and building **practical digital solutions**. Skilled in **HTML, CSS, JavaScript, ReactJS, and Tailwind CSS**, with **hands-on experience** developing **responsive web applications** through academic and personal projects. Possesses a strong **problem-solving mindset**, with the ability to **adapt quickly** and work effectively in **team environments**. Currently exploring **Agentic AI** concepts and interested in building **intelligent, user-centric applications** while continuously learning **emerging technologies**.

Skills

Programming Languages: C, Python, Java, SQL

Web Technologies: ReactJS, Tailwind CSS, HTML, CSS, JavaScript

Tools & Platforms: GitHub, MySQL, VSCode, Canva, Docker, Chart.js, MS Excel

Interpersonal Skills: Adaptability, Conflict Resolution, Teamwork, Problem-Solving

Internships

Web Development Intern – Prodigy Infotech

Mar 2025 - May 2025

- Developed and maintained responsive web applications, implementing interactive features and optimizing performance.
- Tools/Technologies: HTML, CSS, JavaScript, ReactJS, Tailwind CSS, Vite
- Achievements/Outcomes: Improved web application performance by optimizing UI responsiveness and reducing load time by 20% and contributed to successful project deliveries on schedule.

Projects

Expense Tracker with Data Visualisation

[Github](#) [🔗](#)

Jan 2025

HTML, CSS, JS, Chart.js

- Developed a responsive expense tracking web application using JavaScript to record, manage, and categorize daily financial transactions across 5+ expense categories, improving personal budget organization.
- Integrated Chart.js to implement interactive bar and pie charts for visualizing dynamic expense calculations, spending distribution, and monthly financial trends.

Campus Crave - Smart Campus Food Ordering System

[Github](#) [🔗](#)

Nov 2025 - Present

YOLOv8, ReactJS, Tailwind CSS, HTML, Vite

- Developed a responsive campus food ordering web application enabling 100+ students (project-scale) to browse menus, select food items, and place orders seamlessly from campus food outlets.
- Integrated YOLOv8-based crowd detection to analyze cafeteria crowd levels supporting smarter food ordering decisions smarter food and helping reduce peak-hour wait estimation by ~30%.
- Implemented real-time order tracking and responsive UI features to enhance accessibility and improve user experience across devices.

EduBridge - Digital Learning Platform for Young Students

[Github](#) [🔗](#)

Oct 2024 - Jun 2025

HTML, CSS, JavaScript, Node.js, Express, MongoDB, JWT

- Built a responsive e-learning platform for students aged 6–14 with 6+ learning modules, including video lessons, tests, live classes, and progress tracking.
- Built an Express + MongoDB-powered video library with 4+ filtering options (subject, grade, language, search) and optimized responsive UI with light/dark mode, improving accessibility across devices.

Education

Bachelor of Technology in Computer Science & Engineering
Sharda University, Gr. Noida

8.4 CGPA

2023 – Present

Intermediate (12th) - CBSE
Araria Public School, Araria

76%

2023

High School (10th) - CBSE
Araria Public School, Araria

94%

2021
